languages

- Greek (Native)
- English (Lawer)

interests

- Cycling
- Jogging
- Cooking
- Driving
- Traveling

HCI

I believe the "Human-Computer Communication" course will be useful for the implementation of my personal project. As I consider that the course teaches us how to act within the graphic environment of the computer, I will understand the actions we can take to achieve the desired result. Specifically, I want to create a video game to achieve this mutual interaction with the user.

Education

Informatics

2018 -

Ionian University

High School Degree

2013 - 2016

High School of Trikala

PROGRAMMING SKILLS

C

C++

Python

Java

HTML & Javascript
